▶ WELCOME

Prime AV designs, specifies, supplies and installs bespoke Audio Visual Solutions throughout the UK.

With customers in the private, public and educational sectors, it's fair to say we are a little different....we actually listen! We will work in partnership with you to provide a solution you can be truly proud of - in both form and function.

With over 45 years combined AV experience, our expertise is second

to none. With specialities within the Oil and Gas and the Design & Build Industries, we are able to create unique solutions for high tech problems. Call us today for an Obligation Free Consultation and let us see how we can help your business grow.

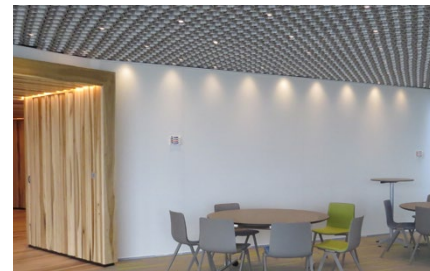

▶ A CORE AREA OF OUR BUSINESS IS OUR ABILITY TO PROVIDE “ENGINEERING EXCELLENCE” AND A HIGH COMMITMENT TO CUSTOMER SERVICE. REST ASSURED, THIS ISN'T JUST “EMPTY PROMISES”, IT'S WHAT WE ACTUALLY STRIVE FOR EVERY DAY!

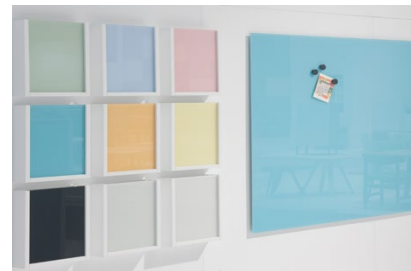

▶ OUR SERVICES INCLUDE:

AV SOLUTIONS
Our Teams have been Supplying & Installing Audio Visual Equipment for many years, providing Quality AV Solutions from Trusted Global Manufacturers. Our Professional AV Installers & Project Managers are fully qualified and their attention to detail is second to none. With certification up to SSSTS Level, we have you covered.

WHITEBOARDS & RAIL SYSTEMS
We can supply and install all forms of Whiteboard and Rail Solutions. Whether it's just a simple Whiteboard professionally installed in your Training Room or a 10 Metre Long Seamless Whiteboard Wall, we can help. With our Porcelain Enamel Surface, our Whiteboards are scratch proof and have a Full 25 Year Guarantee.

GLASS WRITING BOARDS
There are almost limitless possibilities in terms of colour, size, magnetic surfaces and with our numerous “Fixing” options, these Boards can make any environment look welcoming and inviting. Manufactured using the best quality Low Iron Toughened Safety Glass with Rounded Corners and Smoothed Edges.

▶ GLASS WRITING BOARDS

This really is an exciting new Product Range that is going from strength to strength. The possibilities are endless with this amazing magnetic surface. It is now a really good alternative to the traditional whiteboard.

There are almost limitless possibilities in terms of colour, size, magnetic surfaces and with our numerous "Fixing" options, these Boards can make any environment look welcoming and inviting.

Manufactured using the best quality Low Iron Toughened Safety Glass with Rounded Corners and Smoothed Edges, they come in a range of exciting colours to bring your presentations to life!

They are able to be installed as a single unit, or as a "Full Wall" where we "Butt" them up next to each other to provide a very long collaboration space.

Our boards are the best quality available in the UK. At a great price and with delivery in only 7-10 days - we think that's unbeatable!

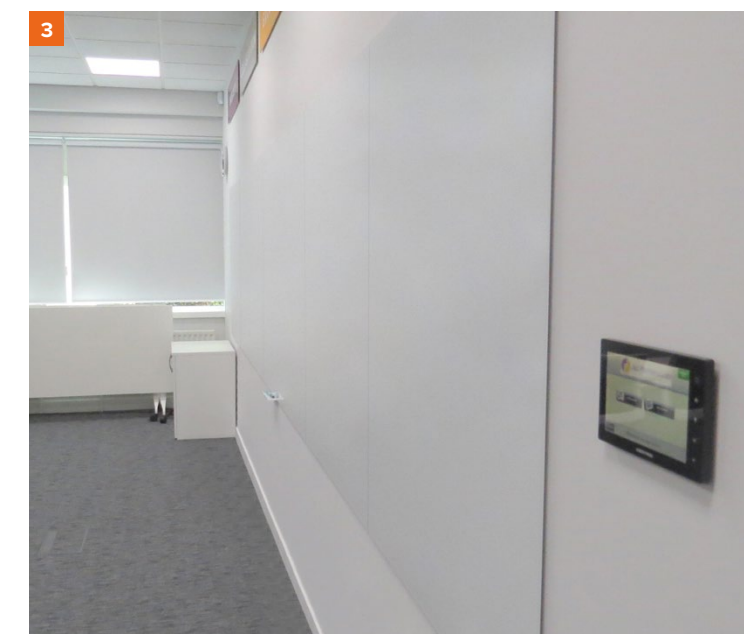

This exciting and versatile glass alternative to the traditional whiteboard can be used in countless settings such as:

- Office Open Areas
- Meeting Rooms
- Boardrooms
- Training Rooms
- Lecture Theatres
- Brain-storming Areas
- Schools
- Doctors Surgery's
- Hospitals
- Homes

▶ WHITEBOARD WALL

FRAMELESS

Without a doubt, this is one of our most popular products, loved by Architects and Customers alike. With its smooth, seamless nature, this product range is the perfect addition to any collaboration space.

The technology is now at a point where we can provide an incredible “1mm” Join between the boards. This “Frameless” version of our Whiteboard Wall is our most popular as it appears to “Float” on the wall. With its Frameless look, it provides a very sleek, elegant design that would fit into any space. It has a highly magnetic surface, so all our accessories sit beautifully upon it to enable you to use it easily and efficiently.

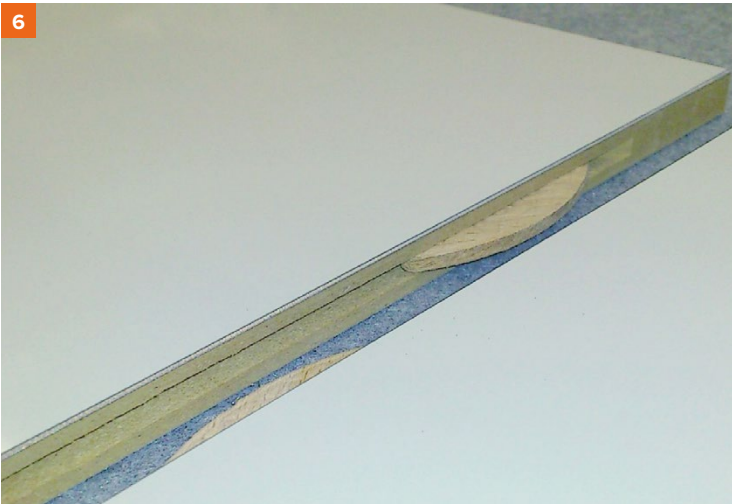

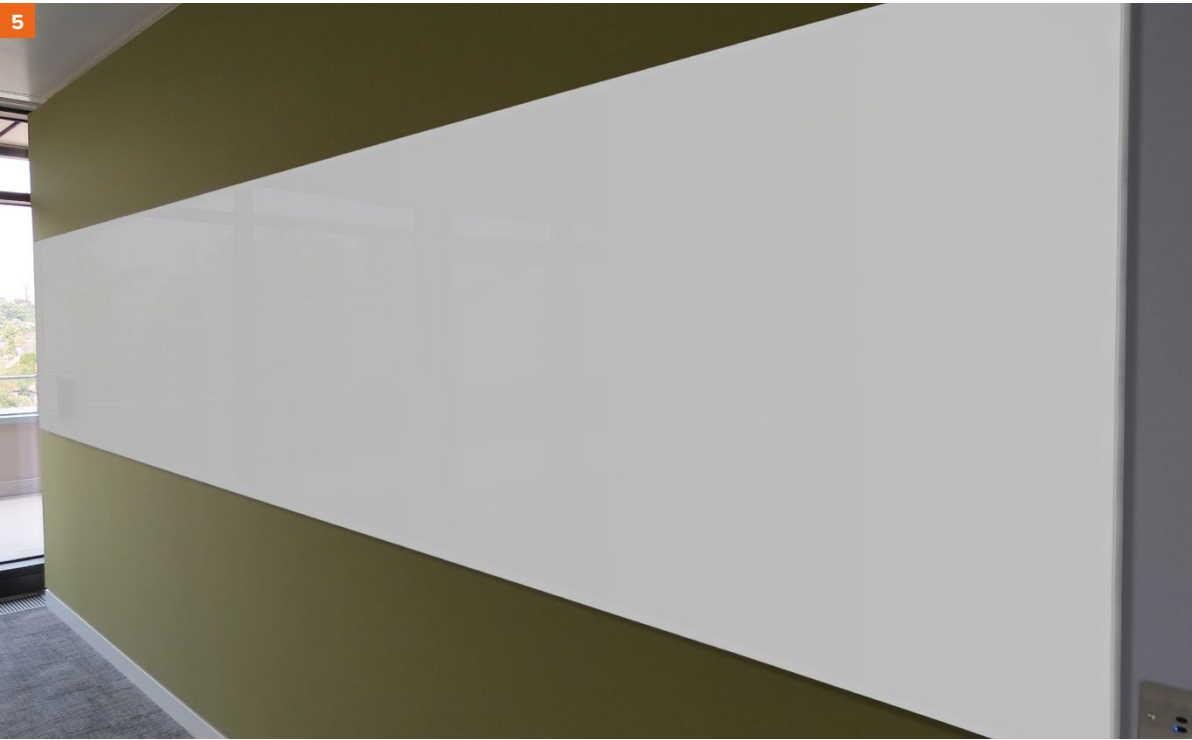

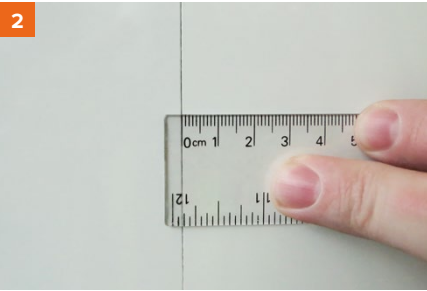

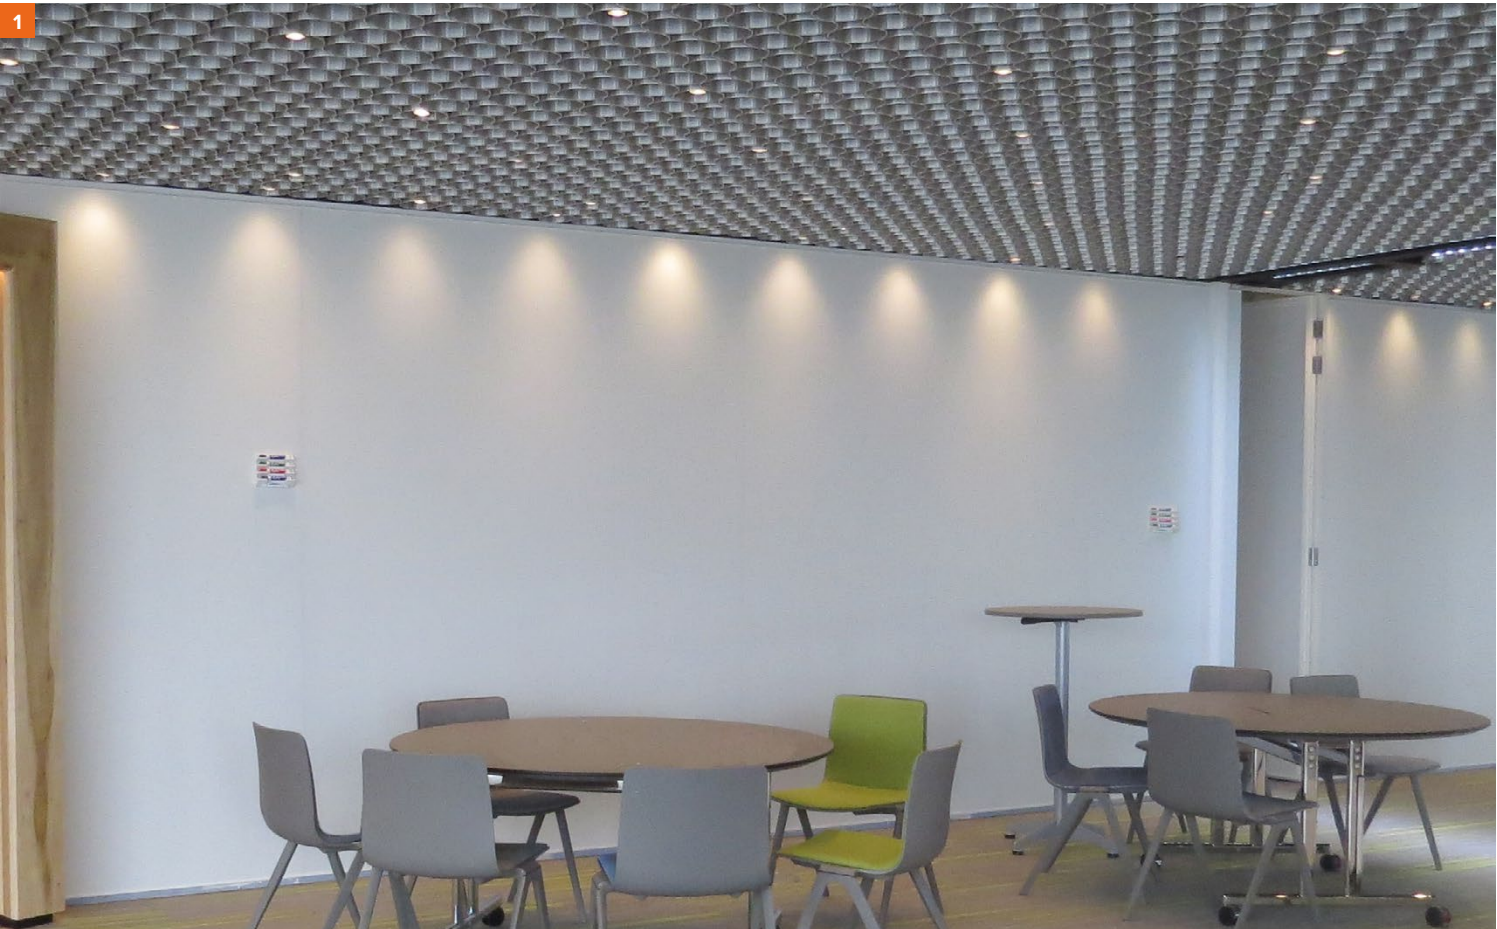

Features:

- Only “1mm Join” Between Boards
- Almost “Indestructible” Surface
- Highly Magnetic
- Matt or Gloss Surface Options (Matt is used for a Projector)
- 99.9% Recyclable Surface
- 25 Year Guarantee

WHITEBOARD WALL

FRAMED

This “Framed” Option, allows a different looking finish to our Micro-Seam Walls. With the same excellent surface as our “Frameless” Wall, this product offers the same functionality at a more economical price.

The technology is now at a point where we can provide an incredible “1mm Join” between the boards. This “Framed” version of our Whiteboard Wall is one of our most popular as it’s slightly more economical than our Frameless version. This is due to the manufacturing process and enables us to offer it at the most affordable price to you. It has a highly magnetic surface so all our accessories sit beautifully upon it to enable you to use it easily and efficiently.

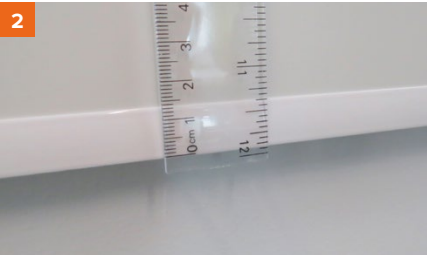

Features:

- Only “1mm Join” Between Boards
- Almost “Indestructible” Surface
- Highly Magnetic
- Matt or Gloss Surface Options (Matt is used for a Projector)
- 99.9% Recyclable Surface
- 25 Year Guarantee

▶ WHITEBOARDS

Our Wall Mounted Boards can be supplied up to 5000mm Wide as a **single piece** which enables the cleanest possible finish for those longer walls.

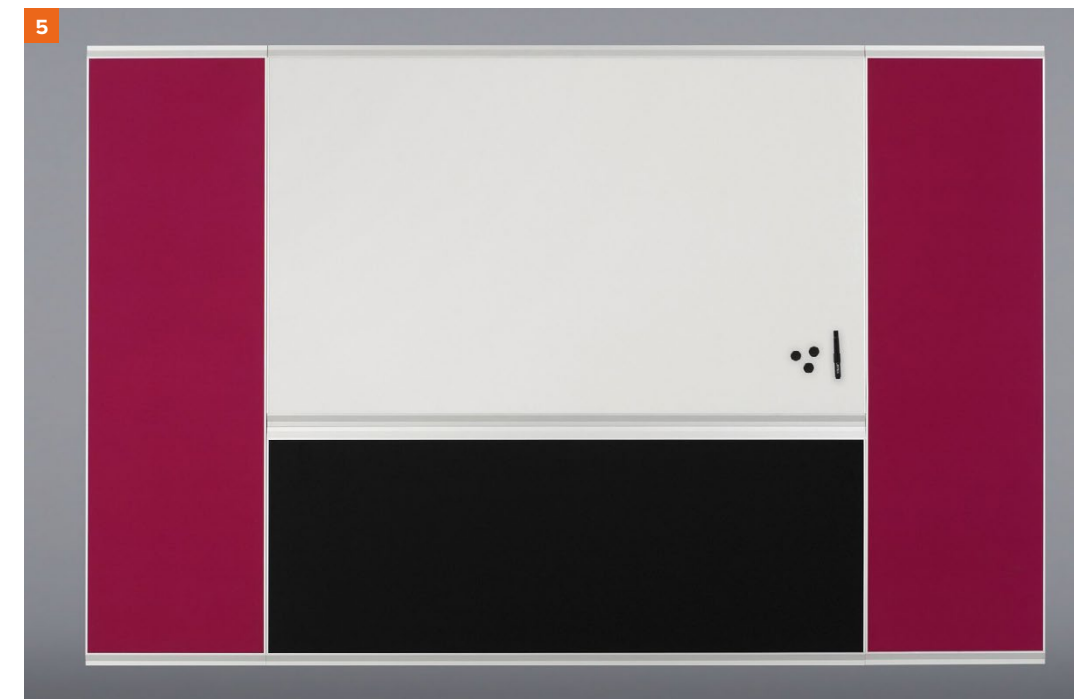

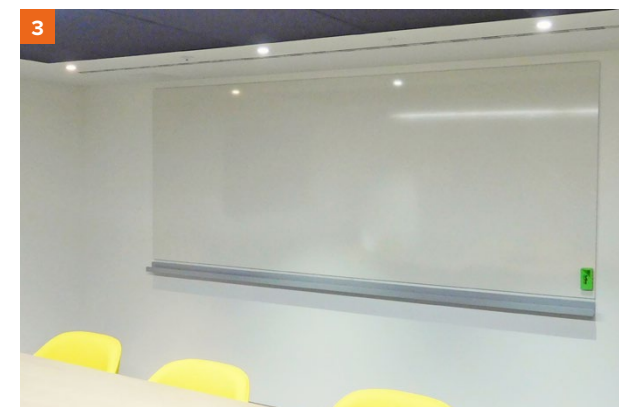

If you are looking for stylish, tasteful Whiteboards then our Range is second to none. The "Air" Board gives the impression it is floating, with its bevelled edges and hidden mountings. The "Full" board gives the impression of an elegant picture frame. The "Slim" board gives a sleek slim design and the "Curve" Board pushes the boundaries of the contemporary. Our ceramic steel boards are of the very highest quality and come with a 25-Year Guarantee on the writing surface.

Also available is a "Truly Portable" board (as shown in picture 2). These boards enable you to move freely from room to room and are specially suited to any listed building where fixing into

the walls is not possible. Also shown is a Whiteboard with a "Pin-Board" surround for the complete working space. Perfect for Cafeterias & Training Suites.

Features:

- Highly Magnetic
- 5 Metres Wide in a Single Piece
- Almost Indestructible Surface
- Hidden Fixings
- Matt or Gloss Surface Options (Matt is used for a Projector)
- 99.9% Recyclable Surface
- 25 Year Surface Guarantee

► MOBILE WHITEBOARDS

For TOTAL Flexibility, we are pleased to offer a number of Mobile Whiteboard options. This Product range is perfect in spaces where glass partitions are common, or for listed buildings where fixings cannot be made in walls. They come in a multitude of sizes and are all fully magnetic. All of the Trims can be powder coated to match your corporate colours.

In addition to these standard whiteboards, "Flip-chart" attachments can be added to give greater flexibility. All of our walls are lightweight so they can be easily moved from room to room, yet are extremely robust to ensure they provide the ultimate in stability.

These boards come as either Single OR Double sided, and can also be supplied with a Magnetic Pen Shelf OR Magnetic Pen Holders for ease of use.

With our almost indestructible and highly magnetic surface, our boards are the industry leaders in both durability and design.

Features:

- Ultra Mobile and Easy to Move
- Single OR Double Sided
- Highly Magnetic
- Can be "Colour Coded" to match your Corporate Colours
- Come in a Variety of Sizes
- Extremely Durable
- With or Without Flip Chart Attachment/Pen Shelf
- 99% Recyclable Surface
- 25 Year Surface Guarantee

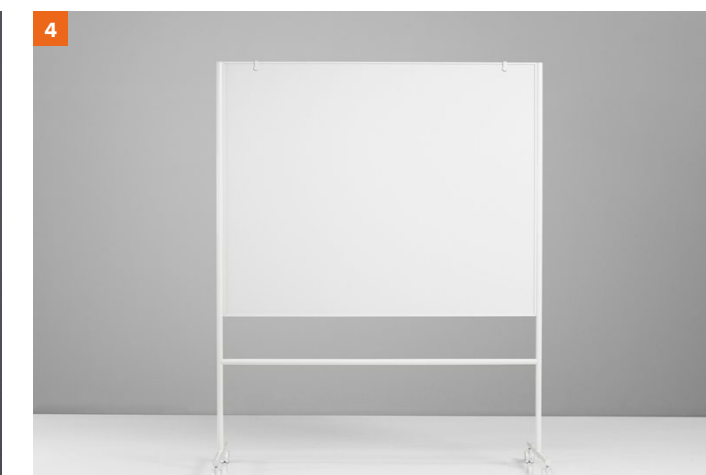

► LIGHT WEIGHT AND DOUBLE SIDED. HIGHLY MAGNETIC AND SCRATCH PROOF. THE PERFECT MOBILE SOLUTION FOR ULTIMATE FLEXIBILITY.

3. Slimline Magnetic "Chrome" Board - Can be supplied without wheels for a fixed installation
4. Double Sided Magnetic "White" Slimline Mobile Board

► RAIL SYSTEMS

Our team has been specifying and installing excellent quality Rail and Whiteboard Solutions for over 20 years, so our expertise is second to none.

There are many reasons why people love our Rail Systems. They really do look "The Best in the UK" due to their sleek profile and clean white finish (Silver finish also available). One of the major reasons why our Rail is so popular is the Health & Safety element. With the Flip Charts "Off" the floor there is NO "Trip Hazard" and of course it gives free and easy wheel-chair access should our DDA compliant solution be installed.

We have two standard colours of Rail Systems. Both White and Silver are available as standard, however we can "Powder Coat" it to any required colour. Due to the smooth "Nylon Saddles", our Whiteboards & Flip Charts flow seamlessly from one side of the Rail to the other – even with the use of just one finger! As the equipment is installed proud of the wall, your walls remain blemish free so no need to re-decorate.

There are many things that can be hung from our Rail System:

- Whiteboards – with 25 Year Guarantee
- Flip Charts (with OR without a Whiteboard back to them)
- Noticeboards
- Shelving Units
- Brochure Racks
- The Rail and "Frame" of the Whiteboards can be powder coated to any RAL colour to match your livery as required
- Bespoke Solutions are also available

► OUR E3, VITREOUS ENAMEL WHITEBOARD SURFACES ARE THE STRONGEST AND MOST DURABLE ON THE PLANET WHICH IS WHY WE ARE PLEASED TO OFFER A 25 YEAR GUARANTEE ON THE SURFACE.

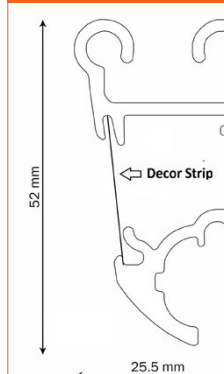

Features:

- Slim Design for an Elegant Finish
- Available in White & Silver as Standard
- Any Colour available
- All Professionally Powder Coated
- Paper Hanging Function built in (for Flip Chart paper)
- Fully Recyclable

1. Rail Solution within Meeting Room
2. Twin Whiteboards and Flip Charts with a Flip Chart mounted "Across the Corner"
3. Rail System "Straddling" a Projection Screen

RAIL PROFILE

PRIME AV
Audio Visual Solutions

Our Rail Solution is perfect for any Meeting Room, Training Suite or Collaboration Space, as it keeps the equipment OFF the floor. Its flexibility enables you to easily lift off any of the equipment and move it to a different room if required.

Our unique “Lockable Saddles” are also an option if you wanted to “Lock” the equipment on the Rail. You can still move the equipment from side to side but it cannot be removed off the Rail itself. These Saddles are provided Free of Charge if required and installed by our Professional Team.

Any combination of equipment is available. So if more Whiteboards are required then these can be easily attached to the Rail as needed. Our unique “Single Arm” Flip Charts enable the paper to be easily turned over when required. Flip Charts with a Twin

Arm system cannot allow this as the second arm is in the way, so we really have thought of everything. All the frames can be Powder Coated to suit your colours if required and with our Projection Screen also able to attached to the Rail, it makes for the perfect solution each and every time.

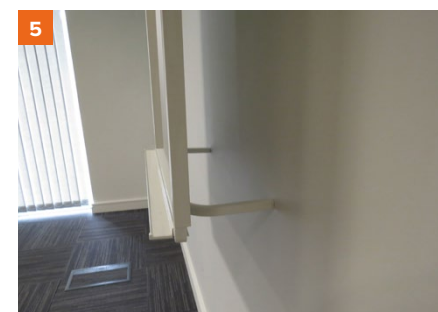

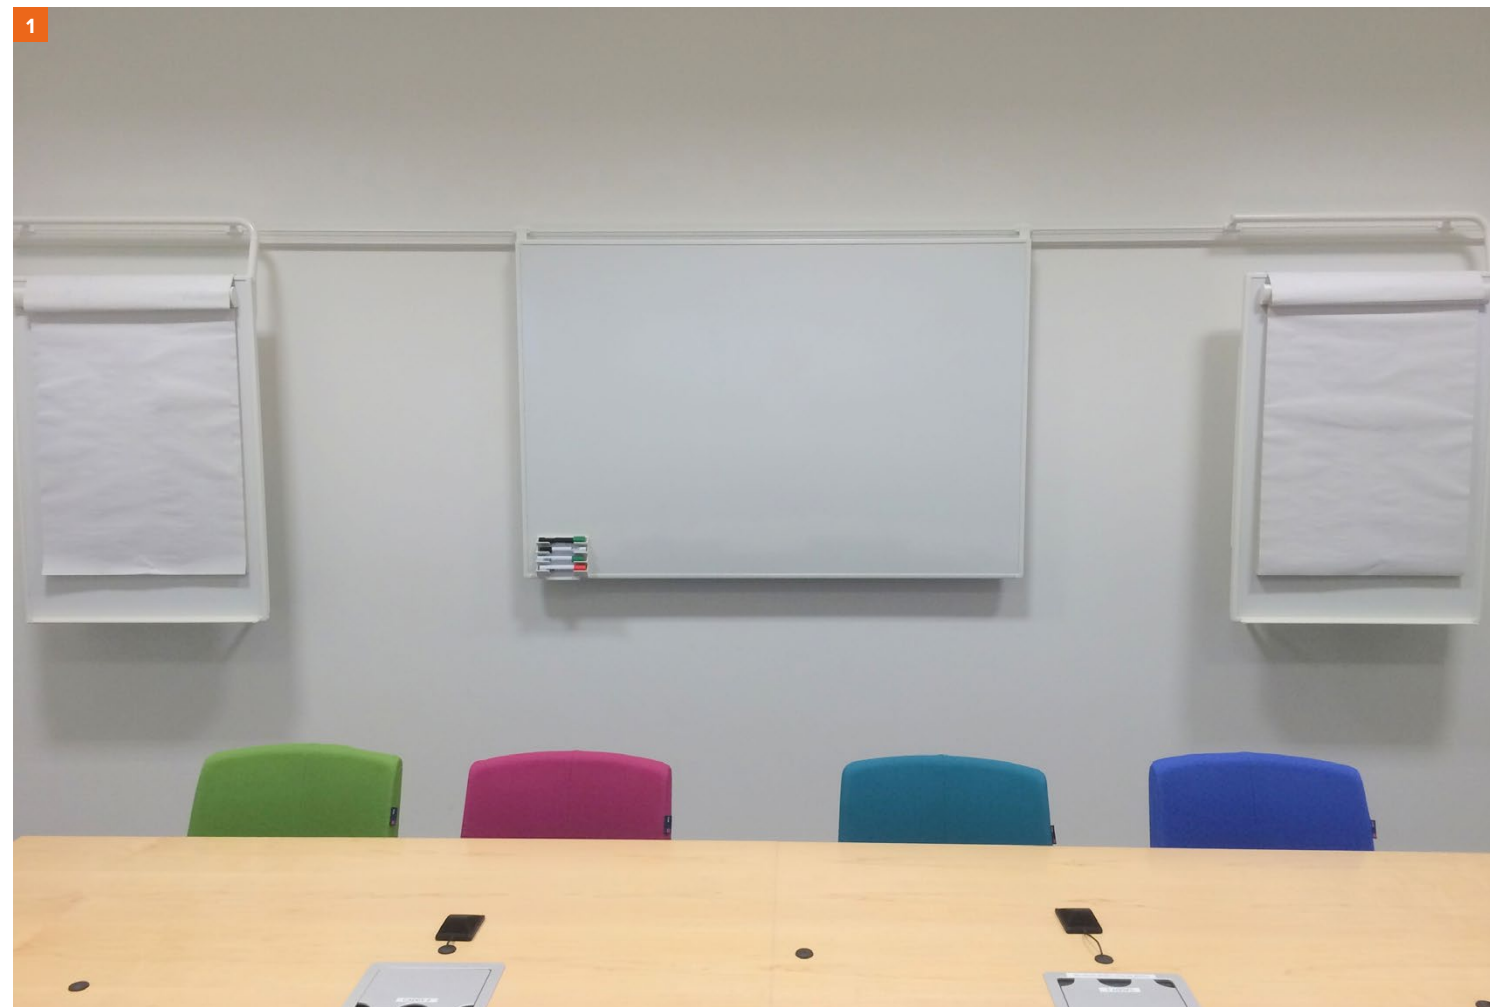

Features:

- Mix ‘n’ Match the Equipment as Required
- Optional “Lockable” Saddles
- Coloured Trim (optional)
- Magnetic Whiteboards
- Single Arm Flip Charts
- Stands Proud of the wall

STANDARD SIZES

Item code	Product Name	(W)	x	(H)	x	(D) mm
65001	Gliding Whiteboard (White Trim)	1000	x	1000	x	60

4. Glass Cabinet with Whiteboard Surface - Finished in "Cool 310"
5. Glass Cabinet with Whiteboard Surface - Finished in "Elegant 100" with Accessories Storage Box Below

► AV FURNITURE

Without a doubt this can often be the most important element of any room! If the furniture is designed badly to accommodate the AV, then your room simply won't work.

Do you want your users crawling under tables to power their Laptops, or shuffling through a "Birds-Nest" of cables in the middle of the table to try and find the Screen's connection cable? All of this wastes time, adds extra stress to any meeting and makes your company look unprofessional.

Wherever possible we like to specify the Cable Management/Furniture and

work with you to provide the most functional, elegant and ROBUST solution for your needs.

Do not under estimate how much of a nightmare "Bad" Cable Management can be and how frustrated your staff will become when the room simply doesn't work like it should.

► ALL OF OUR FURNITURE PROJECTS ARE GENERALLY BESPOKE, SO WE CAN DESIGN ANYTHING FOR YOUR EXACTING NEEDS. BASICALLY, ANYTHING IS POSSIBLE SO PLEASE CALL US FOR MORE INFORMATION.

We can provide a multitude of excellent Cable Management services including:

- "In Table" push button cable Retraction System
- Built-In Microphones
- Universal Power Outlets "In Table"
- VGA, HDMI, CAT 5/6/7, Audio, Display Port ALL neatly hidden away within table top
- Integrated "In Table" Touch Screen Control Panels
- Cable Tidies to floor level

In regards to furniture we can design and supply:

- Meeting Room Tables
- Boardroom Tables
- Media Wall Solutions (for Front/Rear Projection + LED Screens)
- Lecterns
- Cabinets + Credenzas
- AV Racks
- Desking
- Chairs

1. Conference Tables in Committee Style with Wireless Delegate Microphones
2. Free-Standing Presentation Cabinet with 46 Inch Screen
3. Bespoke Lectern with Wireless Control Panel

► ACCESSORIES

1. Cable Cubby with "Automated" Retractors
2. Cable Management with Integrated Control
3. Bespoke Cabinets to match your Livery
4. Cabling "Integrated" into VC Table

▶ VIDEO CONFERENCING

Video Conferencing is a vital tool in modern business, enabling organisations to compete in an increasingly Global Market Place and deliver long term savings on travel expenditure.

With increasing pressure on businesses to reduce their CO2 emissions, and to maintain a healthy "Carbon Footprint" many people are looking to minimise unnecessary travel whilst enabling vital "Face-to-Face" contact.

Whatever your requirements are, Prime AV can provide all the latest technology. Whether it's contacting multiple sites at once, sharing valuable Data and even including desktop or field based staff, we can help.

Within this page, there are some options that can show you how your business can interact with suppliers & customers without leaving the comfort of your offices.

If you require a low cost "Internet" based solution, we can also provide this for you. Whether a "Stand Alone" System based at your desk, or a fully "Integrated" Video Conferencing Suite in your Meeting/Boardrooms, we have a solution for them all.

Our Team can help with the following:

- Desktop "One on One" VC Solutions
- Desktop "One to Many" VC Solutions
- Open Plan Video Conferencing
- Meeting Room Video Conferencing
- Boardroom Video Conferencing Solutions
- VC Bridging Solutions
- Managed Services
- Large Scale Telepresence

▶ WE WILL DESIGN IT FOR YOU AND OUR EXPERT INSTALLATION TEAMS WILL TAKE CARE OF EVERYTHING. WITH A DEDICATED PROJECT MANAGER, YOU ARE IN THE SAFEST OF HANDS.

1. Modular Integrated VC Solution
2. Twin Screen with Integrated Furniture
3. Full Telepresence Suite
4. Desktop VC Solutions

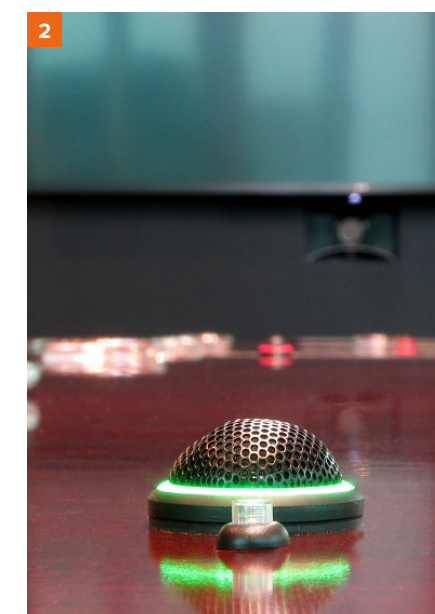

▶ AUDIO CONFERENCING

"Voice" is one of the most critical elements of Group Communication. Excellent quality is essential for both "Audio Only" calls, and of course "VC Integration" ensuring that everyone can hear **AND** be heard.

To improve productivity within a meeting situation, only the best will do and Audio is often the "forgotten cousin" to the visual element of the room. We have found over the years that more often than not, it's the Audio Element to the AV Solution that causes the issue, so we pay particular attention to this area.

Install "Bad" Audio and you will have a "Bad" experience". Guaranteed!

We only use market leading brands to ensure you will never be let down just when you need it most and like always, the possibilities are almost endless.

Applications that require the very best Audio Solution are highlighted below:

- Internet Based Audio Conferencing (via USB)
- Small Meeting Room Audio Conferencing by Star Phone (Analogue or IP based)
- Medium Room Solution with either Table or Ceiling Based Microphones
- Large Room with Integrated Microphones within the Table
- Auditorium Ceiling and Wall Microphone Solutions
- "Push to Talk" Delegation Systems
- Induction Loops
- Wireless Solutions

1. Polycom Starphone with Extension Mics (IP or Analogue)
2. Integrated Boardroom Microphones with "Visual On/Off" Indicator
3. Scissor Style Table with Integrated Circular Microphones
4. Microphones that "Extend or Retract" when required
5. Delegate "Push to Talk" Microphones (Perfect for Councils)
6. Integrated Boundary Microphones

► BOARDROOMS

Not only should your Boardroom make a statement about your company, it must also be equipped with the right tools to enable senior staff to communicate effectively.

Our consultants and engineers will work with you to evaluate your AV Requirements and to make sure the room is installed with the right equipment to help you work more productively.

This room is generally your “Flag-Ship” and we are here to help you achieve the highest possible standards to produce a room you can be proud of.

It really is the attention to detail that makes us a little different. Whether it's matching the colour of the bracket to match the colour of the projector, or

utilising our best possible joiners to integrate that Cable Management and Media Wall Solutions, we stand out from the rest! We will charge you ONE fixed price, so everything is transparent throughout the Project.

1. Full Rear Projection Wall with Integrated VC
2. Boardroom with Large LED Screen
3. Rear Projection with Twin Side Screens
4. Twin Screen VC Suite

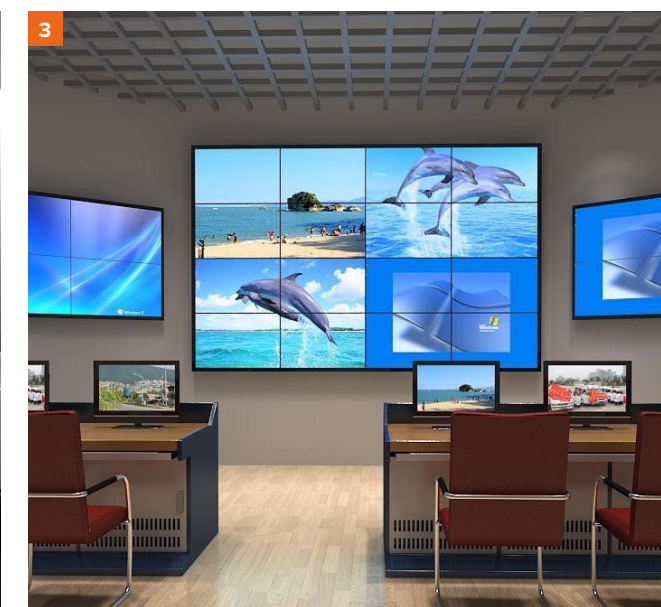

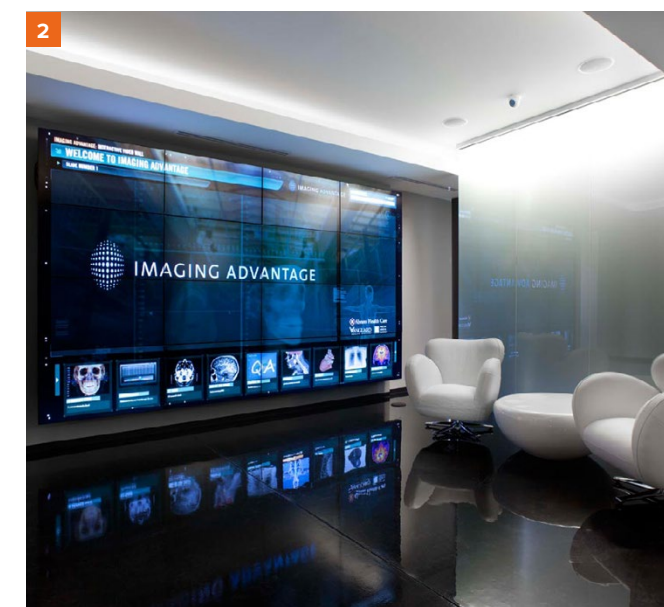

The options for this style of room are virtually endless, but in general terms the following technology styles are normally used:

- Large Screen Displays (65-152 inches)
- High Brightness and High Resolution Projectors either Ceiling Mounted OR Recessed “In Ceiling” via an Electronic Lift
- Electric “In Ceiling” Recessed Screens
- Rear Projection Solutions where the AV is all situated behind a Bespoke Media Wall
- Crestron “Wireless” Touch Screen Control or iPad Control
- Ceiling or Wall Mounted Speakers
- Video Conferencing via the Touch Panel
- Audio Conferencing via the Touch Panel

► VIDEO WALLS

This really is one of the favourite areas of our business as there are so many possibilities and options.

In the “Old” days you had to use Rear Projection Cubes which were very deep and cumbersome. They also had a terrible “Viewing Angle”, as you had to stand directly in front of them to see anything!

Times really have changed and the product mix now available is first class. All Products have “Full HD” as standard, so you are guaranteed the best possible images every time.

The most popular product used for these walls is now “Thin Bezel” LED Screens with an amazing 3-6mm TOTAL Mullion (frame) between the screens, and the

Video Processors that now run these systems are very reliable, flexible and easy to use. Combine all of this with a sleek and stylish “Touch Screen Control System” and they really couldn't be easier to own and operate.

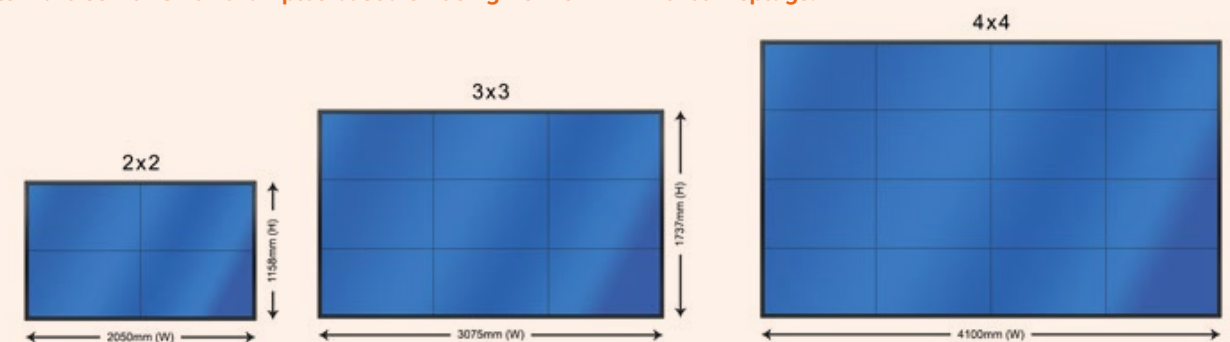

We are pleased to provide the biggest names in this market and will be more than happy to discuss any particular requirement you might have.

1. Video Wall for Oil & Gas Industry
2. Video Wall in Reception
3. A Medical Collaboration Video Wall

Features:

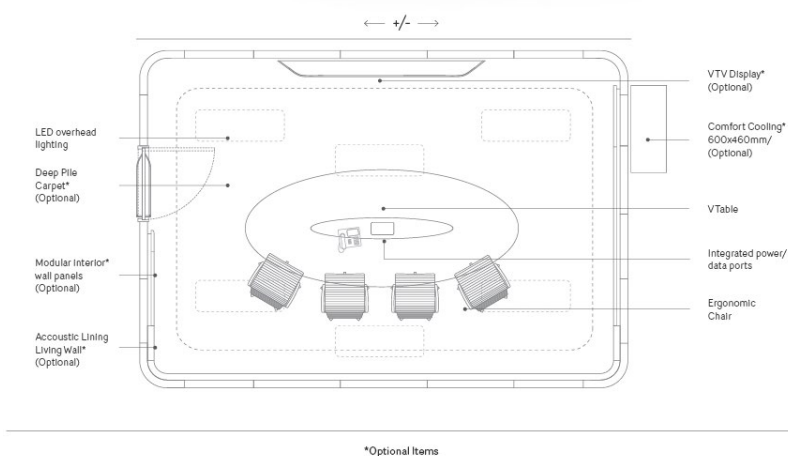

- ANY Size is Possible
- Amazing 3-6mm Mullion (Frame) now available
- 4K Resolution of 3840 x 2160 available
- Ideal for Showrooms and Reception Areas
- Full Touch Screen Control Systems Available

Below are some “Size” examples based on using 46 inch Thin Bezel Displays:

▶ AV PODS

In just one single move, installing Pods with Integrated AV can save as much as 90% of the construction cost for a traditional Meeting Room. They require NO Planning Permission and are a perfect “Free Standing” structure for any listed building.

Fixed partition rooms require project planning, co-ordination and external building trades which all incur substantial costs.

AV Meeting Pods are a great way to create effective Private Meeting Spaces. They are mobile, cost effective and can be set up anywhere within the open office to create a quiet area. AV Meeting Pods can be sound absorbing to various levels depending on your requirements.

We supply AV Meeting Pods that are sure to meet all your office requirements.

Our experienced team will work with you to define your exact needs and then specify the correct solution to enhance your office space. For those who do not want to get caught up in a comprehensive and expensive “Building Project”, our AV Pods are definitely the answer.

Available in almost any size and colour, we can build and install all the necessary AV Solutions in just days. In regards to furniture, the possibilities are endless, from standard style seating and meeting tables, to casual and funky lounges.

1. Break Out Area with LED Screen
2. Training Suites
3. Open Area Meeting Space with Twin Screens
4. Lounge Style VC Space

Benefits & Features for Lounge Seating

- It creates collaborative work settings that support informal team work, especially when used with our low table – lounge height.
- It supports different postures which leads people to more productivity and effectiveness.
- These different elements combined save space and time for a truly collaborative experience.

Different Versions

- 7 Pod Designs
- Multiple Fabric Combinations
- With or Without Privacy Panels
- With or Without AV

▶ HOME CINEMA

Well, the old saying of “The Sky is the Limit” really applies here, as the possibilities are endless.

Gone are the days where owning your own Home Cinema was reserved for the Multi-Millionaire Elite, these rooms are now more affordable than you might think.

One of the most important parts of the Home Cinema Process is the initial design, and our team can walk you through this process easily to help you make those important decisions.

We are happy to just supply the AV Element of the Project, or if it is a custom build then this is our strength. Home Cinemas can be some of the most complicated and intricate AV Rooms possible, so it's important you can trust someone to take all these “Head-Aches” away from you.

Don't think these areas stop at a large room or basement, they can be integrated anywhere from an Outdoor Swimming Pool to your Garden Patio... again, the sky IS the limit!

1. Home Cinema with Earthy Colours
2. Intimate “In Red” Small Cinema
3. Cinema Room with Home Bar
4. Traditional Large Style Theatre

Our Team can help with the following:

- Room Design and Specification
- Wall & Ceiling Acoustic Panelling
- Lighting
- Speaker Integration (in wall, ceiling or surface mount)
- Fixed and Electric Projector Screens
- Cinema Style “Masking” Solutions to change the Screens Aspect Ratio
- Full Range of Projector Options (ceiling mounted/in ceiling/rear projection)
- Flat Screen Technology
- Touch Screen Control systems
- Full Seating Range including “Vibration Active Seating” for a Fully Immersive experience
- 3D & 4K
- Project Management & CAD Design

► HEALTH & SAFETY

This is such an important issue now more than ever. From our Top to our Base we take Health & Safety extremely seriously and will not tolerate anyone that works for us to take this issue lightly.

This is not just "Lip Service" to us, this is our Core Principal and our Commitment to it can't be questioned. We work for some of the largest companies in the UK and our strength in this area really helps with these relationships.

We will always provide the following information for each Major Project we work on:

- Full Risk Assessments
- Full Method Statements
- On Site Safety Manager Designate
- Our In Office Health & Safety Contact
- Full Compliance with any On Site HSSE Requirements
- Morning or Weekly briefings of On-Site staff to keep them up to date of the Site Rules

Our Team will always carry and wear (and do) the following:

- High Vis Jacket
- Hard Hat
- Steel Capped Boots
- Safety Gloves
- Safety Glasses
- Report any HSSE issues/ violation to their on site Manager
- Lead by example
- CSCS Cards
- We also have a Staff Member with SSSTS Certification
